### **"POTENTIAL" Public Safety Power Shutoff (PSPS) Events for Southern California Edison (SCE) and San Diego Gas & Electric (SDG&E)**

The California State Warning Center (CSWC) received notifications from Southern California Edison (SCE) and San Diego Gas & Electric advising they have notified customers of a \*potential\* Public Safety Power Shutoff (PSPS) due to an offshore wind event and critical fire weather conditions. CSWC has made notifications to State and Law Enforcement Agencies.

- The Cal OES State Operations Center is monitoring.
- SCE
  - SCE continues to monitor existing weather conditions as well as the Woolsey and Hill fires actively burning in the service territory. The SCE Emergency Operations Center will remain activated until this evening with activation continuing on 11/11/18.
    - 28 PSPS circuits (23 PSPS circuits and 5 downstream) have been identified for the incoming forecasted fire weather beginning 11/11/18.
      - Los Angeles, Orange, San Bernardino and Ventura counties have all been notified of identified PSPS
    - 14 additional circuits identified for monitoring in Riverside County
      - These lines are not being proactively de-energized at this time; this is for monitoring only.
      - Potential impact is for Monday, 11/12/18
    - Customer notifications of possible PSPS de-energization are ongoing
    - Customers can find the most updated outage information on <https://www.sce.com/wps/portal/home/outage-center> or by contacting the SCE Customer Service Center at 1-800-655-4555.
- SDG&E
  - SDG&E will activate its Emergency Operations Center (EOC) on 11/11/18 at 1700 hours and has planned the following operational periods:
    - 1st operational period: Sunday 1700 - Monday 0500
    - 2nd operational period: Monday 0500 - Monday 1700
    - 3rd operational period: Monday 1700 - Tuesday 0500
    - 4th operational period: Tuesday 0500 - Tuesday 1700
    - 5th operational period: Tuesday 1700 - Wednesday 0500
    - 6th operational period: Wednesday 0500 - Wednesday 1700
    - 7th operational period: Wednesday 1700 - Thursday 0500

# SITUATION SUMMARY

- SDG&E (Continued)
  - Operational Update
    - Two tielines remain de-energized for safety with no customer impact.
    - Lines were proactively patrolled to ensure system reliability.
    - Reclosing will be disabled on devices in the service territory by 0600 Sunday.
    - Sensitive relays will be enabled throughout HFTD by 0600 Sunday.
    - Circuits or TL's with abnormal configurations will be closely monitored through the event.
    - All outages (safety related, unplanned, secondary) will be completely inspected for damage prior to restoration.
    - Electric Control Centers have a full complement of staff through the event to swiftly address system issues.
    - Adequate energy supply to maintain load, limited concern.
    - A Mobile Command Trailer (MCT) has been deployed to support the Hill & Woolsey Fires for SoCalGas.
  - Communications Update
    - SDG&E's EOC remains in close coordination with SD OES and State OES.
    - Customer Service proactively notified over 31,000 customers notifying them of the upcoming RFW and potential PSPS event
    - Customer Service, External Affairs and the PIO are working closely with Meteorology to ensure customer, agency and elected official notifications are timely and coordinated.
    - SDGE.com, News Center and social media will be consistently refreshed with relevant situational awareness throughout this RFW event.
    - The Customer Call Center will have a full complement of staff to address customer concerns.

# WEATHER OF CONCERN

## **Northern California**

- Dry conditions and breezy to gusty winds, has resulted in Red Flag Warnings for interior northern California.
- Warm and dry conditions are expected through much of next week with relatively light winds.
- Widespread smoke from the Camp Fire will continue to impact much of the area.

## **Southern California**

- Exceptionally dry air mass coupled with gusty northeast to east winds will be responsible for critical fire weather conditions in the Kern County mountains and in the southern Sierra Nevada through Monday morning.

# Key Points

11/11/18 - 11/17/18

## Sunday

- Widespread critical fire weather will continue across all regions of California today, due to gusty winds and very dry conditions.

## Monday - Tuesday

- A strong Santa Ana wind event will continue across much of the Southern Region. Combined with the very dry conditions, this will lead to very critical fire weather across the area.
- Winds in the Coastal and Inland Regions are expected to decrease by Monday morning, though elevated fire weather conditions will persist through the week with very dry relative humidity.

## Wednesday - Saturday

- The Santa Ana winds should largely subside by Wednesday, but elevated fire weather conditions will persist through the rest of the week. No precipitation is currently expected through Saturday.

## All Days

- Widespread poor air quality due to smoke likely to continue.

# WEATHER SYNOPSIS BY REGION

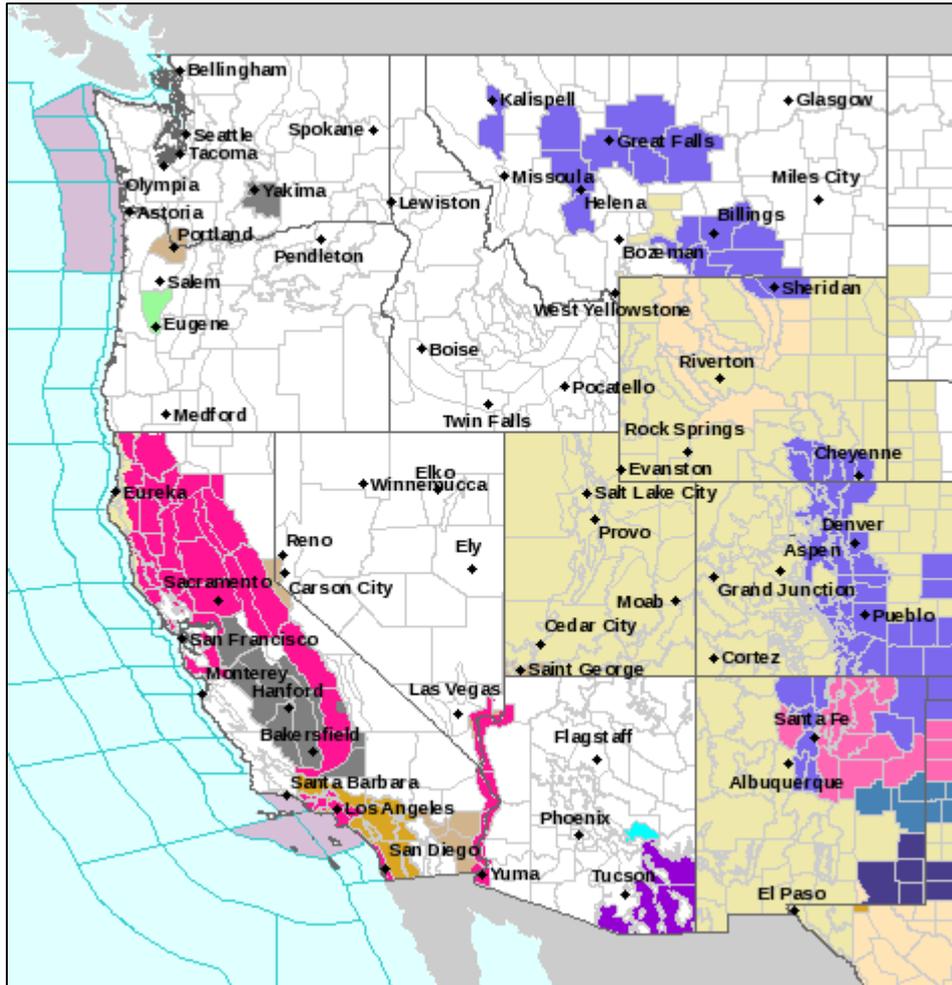

## **NORTHERN CALIFORNIA**

- High Risk of Significant Fires Due to Gusty N-NE/Offshore Winds/Low Relative Humidity (RH) this Evening through Early Monday from the Western Cascade-Sierra Slopes to the Coast
- High pressure will continue to produce warm, dry conditions through at least Friday.
- N-NE/Offshore winds much of this week, strongest today through midday at mostly 10-20 mph with gusts 25-35 mph, although locally 15-25 mph with gusts 40-55 mph, before gradually decreasing this afternoon. Winds will pick up again somewhat tonight at mostly 10-20 mph with gusts 25-35 in the windiest locations, especially along the western Cascade and Sierra slopes. Wind speeds will decrease markedly by midday Monday with much lighter, mainly northerly winds the rest of this week, although moderately strong local N-NE winds are expected for a time Wednesday.
- Afternoon RH will be low (5-15%) through Monday with poor overnight recovery (5-25%) in windy areas and on mid and upper slopes. After Monday, RH will increase some with afternoon min RH likely to range from 12-20%, especially where/when winds are light.
- Afternoon high temperatures will continue 5-10 degrees above seasonal normals with warmest inland areas mostly in the mid 70s. Overnight lows will be pretty close to seasonal values, and frost/freezing conditions are likely to become a bit more widespread.

## **SOUTHERN CALIFORNIA**

- Another round of strong Santa Ana winds will occur today through Wednesday morning. The winds will be strongest today and tonight over Ventura and Los Angeles County before the strongest winds shift southward to San Diego County Monday. Very, very low relative humidity will occur over most of Southern California the next 3 days. RH recovery will be poor the next few nights. Onshore flow will bring shifting winds and slightly cooler weather back during the second half of the week.
- Northeast winds of 25 to 40 mph with gusts to 60 mph in Ventura and portions of Los Angeles County developing this afternoon, lasting into Monday morning. Look for similar winds speeds in San Diego County Monday afternoon into Tuesday across San Diego County. Winds of 20-30 mph with gusts to 45 mph will occur in the Inland Empire and Orange County tonight through Tuesday night. In addition, northeast winds of 20-25 mph with gusts to 50 mph will be possible in favored Sierra Foothill valleys this evening into Monday. All offshore winds should cease Wednesday morning.
- Widespread single digit humidity along with very poor humidity recovery at night will continue through Wednesday.
- There will be little change in temperature through the end of next week, with upper 40s and 50s across the mountains and 70s to low 80s in the valleys of Southern California.
